**DEPARTMENT OF COMMUNITY MEDICINE**

**Biomedical Communication**  
*A Value Added Course for Postgraduate Students*

# Course Content

<b>Title</b>	<b>Biomedical Communication</b>
<b>Target Group</b>	<b>Post Graduate Students</b>
<b>Goal &amp; Objectives of Course</b>	<p>In the era of Evidence Based Medicine, it is very essential that the Post Graduate Students know about Publications &amp; Ethics. Publishing plays a pivotal role in the academic world, serving as a cornerstone for the dissemination of knowledge, fostering intellectual discourse, and contributing to the continuous advancement of various fields of study. Through the publication of research papers and academic writing, scholars can contribute to the development of their field, building upon the collective body of knowledge and pushing the boundaries of understanding. Publishing a research paper is often essential for career progression within academia. Furthermore, publishing allows academics to establish themselves as experts, enhancing their professional reputation and opening doors to collaborations and networking opportunities.</p> <p><b>At the end of the Value Added Course the students should be able</b></p> <ol style="list-style-type: none"> <li>1. To identify different types of Publication.</li> <li>2. To know the basic structure of Scientific Paper.</li> <li>3. To discuss various Sections of Manuscript.</li> <li>4. To learn the importance of Publication Ethics.</li> <li>5. To learn how to choose a relevant Journal for Publication.</li> <li>6. To learn how to get your paper published.</li> </ol> <p><b>Course outcome</b></p> <p>At the end of the successful completion of this course the students will be able to prepare Manuscripts for submission in good indexed Journal. Certificate will be awarded at the end of the course.</p>
